## EXPERIENCE

**General Assembly, New York, NY** Feb 2022 - May 2022 *Software Engineer Apprentice*

- Immersive Software Engineering program that included over 480 hours of professional training over 12 weeks
- Utilized hands-on approach to create dozens of web applications in multiple coding languages and frameworks such as Python, Javascript, React, Django, and Express.js
- Setup and deployed databases using SQL Database PostgreSQL, MongoDB Atlas, and Heroku
- Managed version control technology for self and group projects with Git and GitHub

**IAB, New York, NY** Feb 2020 - Jan 2022 - *Manager, System Operations and Data*

- Managed and Assigned Operational Support Zendesk Tickets
- Utilized TOAD to assist Director of Business Operations in managing SQL tables to ensure up to date data via SQL scripts, store procedures, and scheduled jobs
- Leveraged Client and Financial Data by working alongside Account Management Team as well as Accounting team to create actionable Tableau reports and dashboards
- Supported organization through Salesforce Administration such as permissions management, development, and deployment of new functions, automation, integrations with third-party software such as docusign and pushmetrics

**IAB, New York, NY** Oct 2017 - Feb 2020 - *Operations Coordinator*

- Supported L&D through Salesforce Administration and Operations Support

## PROJECTS

**Pokemon Battlerl** | [Netlify](#)

- Data was fetched from a Pokemon API
- This project was created using HTML, CSS and Javascript and a very thorough exercise on DOM selectors and common UI's such as Burger menus

**SunnyScore** | [Netlify](#)

- Created using a API I personally deployed using sunlight data from Wikipedia and hosted on Heroku/MongoAtlas
- Employed various React concepts such as State and Lifecycles, Conditional Rendering, Forms, Handling Events, State lifting, State and Effect Hooks

**Severance Episodes** | [Netlify](#)

- Created using a API created and deployed by classmate
- App was created using React library to practice using unfamiliar API routes and controllers.

## EDUCATION

**Software Engineering Immersive at General Assembly**, New York, NY May 2022 *Certificate in Software Engineering*

**Data Analysis Circuit at General Assembly**, New York, NY Aug 2018 *Certificate in Data Analysis*

**CUNY Hunter College**, New York, NY 2009 - 2014 *BA in Psychology and Sociology*

**Brooklyn Technical High School**, New York, NY 2006 - 2009 *Architecture Major*
